

Cover letter

Date: 13.10.2020.

To whom it may concern,

My name is Aleksa Ivković and I would like to be a scholarship holder at your company. As a Bachelor with Honors in Electrical and Computer Engineering, I have enrolled in Computing and Control Engineering, Master Academic Studies, in the field of Software Engineering. Even though I have limited professional experience in this field, throughout my college years I have acquired and developed theoretical and practical knowledge which would make me a great asset to Levi9.

In college I have acquired great knowledge in web development, in which lies my passion, both in front-end and back-end technologies. I have developed applications similar to Airbnb and Skyscanner. Besides that, I love working in teams, during projects like that, I have exhibited collaborative behavior and I am very talkative. I am well organized, good with time constraints and very persistent.

I truly hope that You will consider me for your scholarship program. I would really like to work for your company, because I think that I can learn much during the time spent at Levi9 and I think than I would be a great asset to your company and that together we can achieve great things. If you have any questions you can reach me by mail at 97ivkovic@gmail.com or by phone at +381 69/ 519 53 45.

Thank you for your consideration.

Sincerely,

Aleksa Ivković
