

Subject: Letter of Recommendation for Aleksa Ivkovic

Date: 12th October 2020

Reference: The final year of the undergraduate program and BSc thesis development

To whom it may concern,

I am writing to you to recommend Aleksa Ivkovic as a candidate for the scholarship program at Levi9. As a student at a University of Novi Sad, Aleksa showed exceptional talent on a subject dedicated to advanced web programming that I hold, and later on, I was guiding him in the process of thesis development for his BSc graduation.

Aleksa was not only among top 5% of the students considering his grade, but he also finished the subject on time and on quality. Moreover, Aleksa chose a subject for his BSc thesis in the area of microservices demonstrating his passion and interest in the web development.

Throughout exchanges while he was working on the thesis, I've come to conclusion that his knowledge concerning web programming is built on a solid foundation as he was able to grasp different concepts with ease, and I understood why – coming with growth mindset, Aleksa was always eager to learn more and to provide that extra effort in his search of perfection.

With these points in mind, I am very happy to recommend Aleksa to the company such as Levi9 – a company dedicated to offer premium quality service through people, processes, and (web) technology. I am convinced he is a worth candidate for your scholarship program.

Yours Sincerely,

Nikola Dalcekovic, PhD,

Assistant Professor, Faculty of Technical Sciences at University of Novi Sad
